

Bianco Trinoro 2019 | Tenuta Di Trinoro

Bianco Trinoro is a wine made of 100% Semillon from a sandy parcel located in one of the highest point of the estate, at 360 m asl. Initially planted in 2001, was completed in 2006, with Bordeaux strains. The wine is highly aromatic with ripe, fruity notes, balanced by a lovely freshness and acidity that guarantee a long aging potential.

Vintage, 2019

“A cold spring, with a May that hardly existed – there was frost on May 7th, which required us to spend the night lighting over 9,000 candles in our lowest vineyards to prevent damage during flowering. This was followed by a prolonged period of cold that delayed flowering, especially for the early-ripening Semillon and Merlot. Spare bunches, small berries, thick skins.

Most of August, it was so hot that the plants shut down – they were already tired given the bumper crop of the previous year. This was followed by another drop in temperature at the end of the month, which paralyzed the maturation of all of the vines, especially the late-ripening Cabernet Sauvignon and Petit Verdot. 2019 was the latest ripening vintage we’ve seen in ten years.

We began the 14th of September with the Semillon, which was brought in over 2-3 pickings, and the first bit of merlot from the hillsides, with the heart of the fruit coming in around the 10th. The waiting period between the Merlot and cabernet franc this year was very short, with the franc mostly in by the 18th. Even with a rainy and cool start of October, we were impressed by the quality and quantity: 5 or 6 excellent parcels of merlot, the same for the franc, due to the smaller and tighter bunches with fewer berries, but more left on the vines this vintage.”

Denomination	IGT Bianco Toscana
Area of production	Val d’Orcia, where Umbria and Lazio meet
Blend	Semillon 100%
Age of vineyard	18 years
Planting density	10.000 plants per hectare
Altitude	630 m asl
Yield	18 Hl/Ha
Harvest-time	14 th , 18 th and 26 th of September
Type of harvest	Hand-selected
Fertilization	Sheep manure
Treatment	Copper, sulphur, clay, propolis and grapefruit seed extract
Vinification	Fermentation in stainless steel vats for 10 days
Aging	Aging in cement tanks
Bottling	Waning moon of February 2021
Production	2,446 bottles
